

AMPEX DATA SYSTEMS

Quality Policy

AMPEX is committed to manufacturing and delivering high quality aerospace and edge products to our Customers on time. We will strive to leverage innovative and efficient processes, developed and implemented by our employees, to meet or exceed customer and regulatory requirements and enhance our performance toward achieving Customer Satisfaction. Our policy includes the requirement for a continual commitment to compliance and the constant improvement of the overall effectiveness of our quality system through continual review and analysis.

In support of our commitment to our quality policy:

WE COMPLY with regulatory and industry requirements related to quality and safety, and we only work with suppliers who abide by these same standards.

WE STAND BY our products and services, and are always responsive to our customers.

WE WORK according to a streamlined set of standardized business processes, and we continuously innovate and improve our products and services.

WE NEVER deliver, receive, make or ship subpar quality products or services to our internal or external customers.

WE EMPOWER EMPLOYEES by creating a motivating workplace where all employees understand they are responsible for delivering high quality products and services, preventing waste, simplifying processes, and making decisions that enable us to meet or exceed customer and stakeholder expectations.

Jim Orahood
Exec. Vice President & General Manager
